Title: CLUSTERING OF TASK-ASSOCIATED OBJECTS FOR EFFECTING
TASKS AMONG A SYSTEMS AND ITS ENVIRONMENTAL DEVICES

Honorable Commissioner of Patents and Trademarks
Washington, D.C. 20231

AMENDMENT

Sir:

In response to the Office Action mailed February 20, 2002 ("Office Action"), please
amend the above-identified application as follows:

In The Specification

(See Appendix A for marked-up changes)

Please replace the following paragraph, page 23, line 15 to page 24, line 14:

The formatting function provides for organizing objects by and among various types of
objects. As an example, objects of an active environment (or cluster) are subject to formatting
by/among object types that include: (a) a tasking object which, if selected, effects a particular
task for a particular environmental device; (b) a macro object which, if selected, effects a
predefined set of tasks; (c) an activation object which groups, by respective objects, one or more
of environmental devices, presentations, or other elements subject to being activated so that, if
the activation object is selected, the object displays, for selection, the respective objects of
implicated devices, presentations, other activation objects or the like; (d) a common object
which, if selected, provides a particular task (e.g., a numeric key pad) that may be associated
